How to Participate

All individuals referred to MI Choice receive a telephone intake interview to assist in determining eligibility for an in-home assessment.

If an individual is eligible, a registered nurse and social worker visit the person's home for an in-depth assessment.

The assessment evaluates the Individual's physical and mental health, functional status; informal and formal supports; home environment; financial resources; and third party supports, such as insurance.

If an individual is **not** eligible, he or she is assisted through referral to other appropriate community agencies.
